CASE NO. 68-521-446

EXHIBIT 48

FEB 24 1969

WILLIAM G. SHARP County Clerk

BY A. N. [Signature] DEPUTY

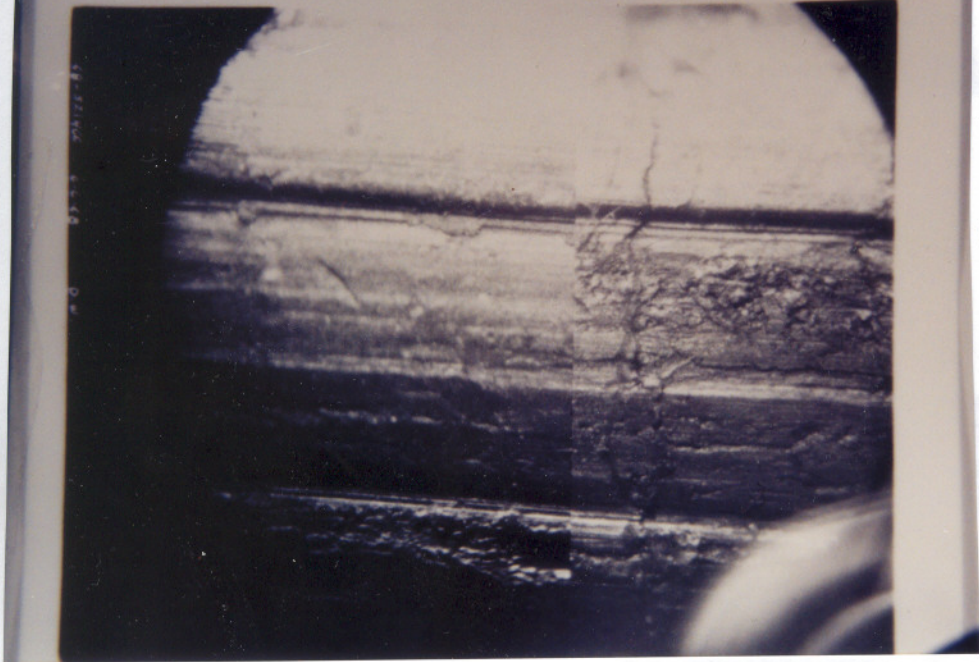

This is the evidence I testified to @ Seattle
Inquest trial,

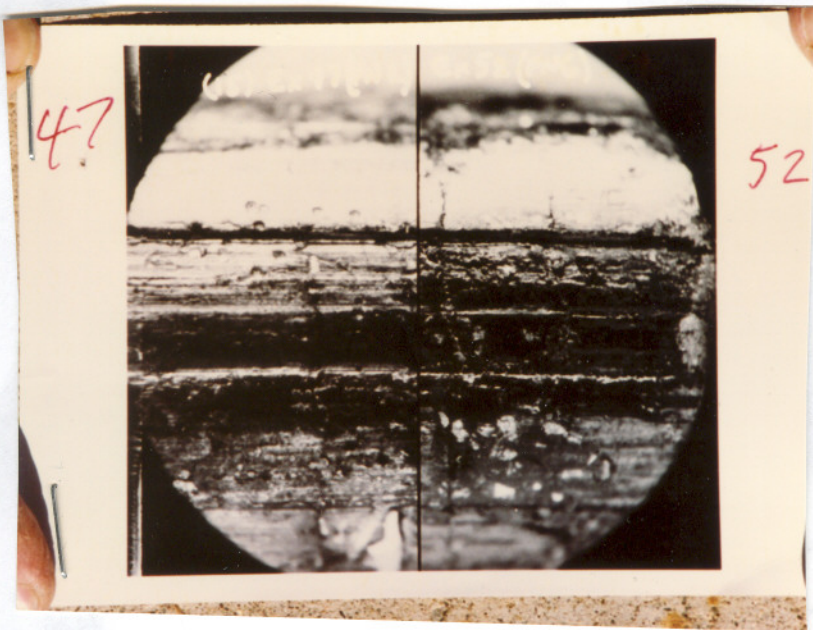

Note #26 + #27 are phantom numbers -
The actual item numbers are #24 + 25 -
see alteration -

Read my Spec. Ex. 10 Report

Rae Lynn Mangon

← Spec. Ex. 10
photo printed from 35 millim
eter negative which Dr.
Noguera handed to Dr. Robert
Joling in Feb '69 @ Drake
Hotel, Chicago so "hold
on to for safekeeping"
Dr. Joling printed that
negative & mailed this
print to me. Joling's writing
appears @ upper right.

← This is a re creation
of Spec Ex 10 by examiners
in 1975 (per Judge Wenke
Court Order).
Hamer, Pco 47 (K. neck)
bullet) has the wrong ID
engraving on its base "DW"
"4 N". It should be "4 N 31"
And the alleged Goldstein
bullet (Pco 52) should
have Dr. Finkel's engraved
X and not the Panel ID
nealy designated # "6"

Therefore - both the K. neck bullet and the
Goldstein bullets are inauthentic
Examine Court Order II evidence invent.
orig in my Spec. Ex. 10 Report

↑ This is the Jake Williams gun and it was this gun which L A PD Criminalist De Wayne Waffer test fired in the H₂O recovery tank. ID # of this gun is H18602.

The three test bullets and two shell casings entered into evidence @ Sirhan trial, however - the evidence envelope in-formation was never read into evidence. All ballistics evidence was stipulated to by defense attorney - Grant Cooper agreed to stipulations during a meeting in trial judge Walker's chambers - Sirhan was not present & was unaware of the agreement to stipulate to ballistics evidence.

Additionally the defense attorneys did not hire either a ballistics expert or a handwriting expert -

Defense stipulated to handwriting & bullets without consulting Sirhan about this amazing conduct.

11-2-2006

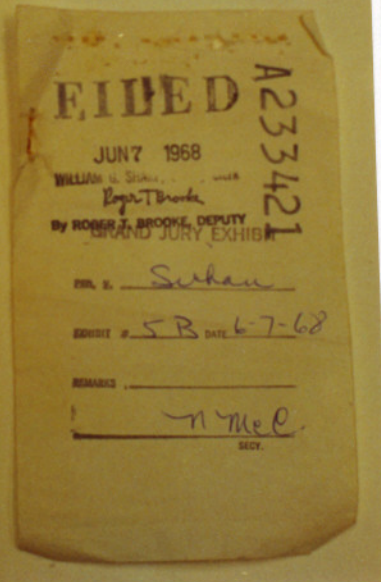

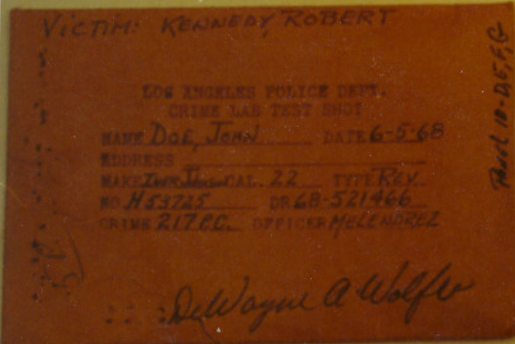

75 A for identifi-
cation. Not in
evidence and with held
from the jury @ Sirhan
trial

torn gun label found @ rear of Sirhan residence
by Pasadena Police officer Thomas Young on
top of rubbish can on 6-6-68 - one day after
the FBI examined Sirhan residence/property.
How could the FBI have missed this?
Also, on 6-5-68 the entire Sirhan family
was removed from their home for a period
of 7-10 days. They were housed in the vacant
apartment of a church member. - Therefore,
the ~~apartment~~ Sirhan residence was under the
total control of LAPD/FBI for over a
week with no member of the Sirhan
family present.

I have always been concerned about the
6-5-68 FBI examination and on the fol-
lowing day the above torn gun label (from
gun box) was suddenly, accidentally found -
And then - this very evidence is with held
from the public + jury during Sirhan's trial.
Years later Adel Sirhan found a gun box
in the back of a book case in the living room.
I was repeatedly asked by Wm. Harper to try to
find that gun box & look for the torn gun label.
Was the box also planted?

Lee Lynn Mangum

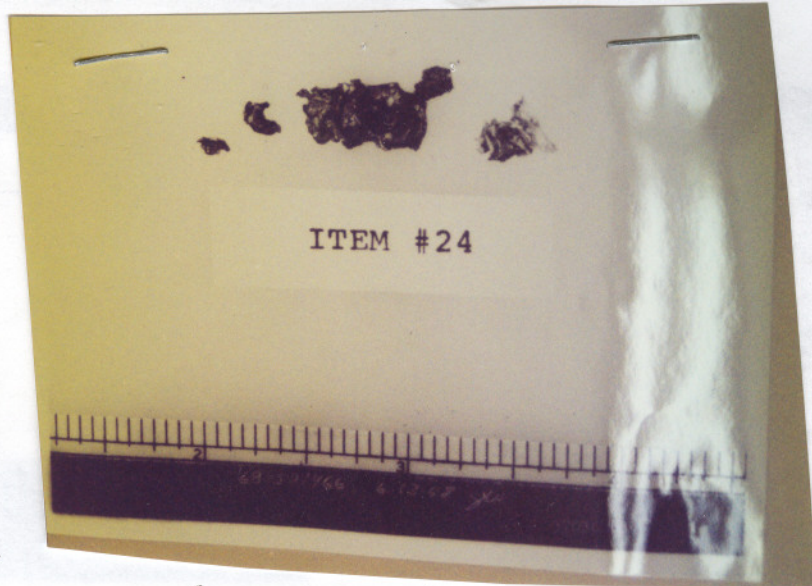

↑ This is a photograph of the evidence envelope of Grand Jury 5B. The 4 test-fired slugs were fired from gun ID # H 53725 - the alleged Sirhan gun. However, these bullets were never entered into evidence during Sirhan's trial. They remained sealed under Judge Arthur Alarcon's order - never left Grand Jury custody until after Sirhan's sentencing. I accidentally discovered this evidence envelope while examining SWS files. I hired criminalist Alan Gilmore to photograph all of the ballistic evidence and accompanying documentation. This is a photograph of the 6-5-68 test firing of H53725 evidence envelope, LACGJ tag and 4 test-fired bullets.

Rose Lynn Mangon
11-7-06

P.S. Note photo of alleged Sirhan gun H53725 @ upper right. Remember, the test bullets from alleged Sirhan gun H53725 was sealed in LACGJ custody and both test bullets and evidence envelope was not made known to Sirhan defense attorneys.
