Part Five Addendum

Includes documents showing falsification of evidence, destruction of "important papers" in hospital incinerator, a major contradiction of how the wrong gun ID number was written on People's Exhibit 55 and additional relevant documents along with some clearer copies of earlier material.

A - The sales receipt from Lock Stock 'n Barrel #2372 was created from the Sportarm sales receipt # 2372. Both receipts bear the same FFL # (Federal Firearms Licensee # -FFL # 95-5890). I wrote to ATF requesting FFL # for Lock Stock 'n Barrel and learned receipt # 2372 FFL # differs from Lock Stock 'n Barrel FFL #. Why? Also, I wish to thank California State Archives RFK collection in Sacramento, Ca. for a clearer copy of Peo. Ex 22 . See these disturbing records.

B - Documents showing a serious contradiction of how the wrong gun ID number (H18602) was written on Peo. Ex 55.

C - Here is a copy of the letter referencing Sirhan's use of blanks at the gun range on 6-4-68. As I noted earlier I questioned Sirhan about his memory of the gun range on 6-4-68 and he told me about meeting a young man (abt 18) who had received a gun for his birthday. The man was firing blanks and he and Sirhan exchanged guns using blanks. This document is slightly cropped at the left, but still contains this critically important information. Additionally, I want to point out that at least 10 people who fired weapons at the San Gabriel Gun Range on 6-4-68 did not sign the gun roster sheet (see attached document).

D - Iqbal Khalid had two cameras (and possibly three cameras) at the Ambassador Hotel on 6-4-68.

E - Burning "important papers" in General Hospital incinerator on 7-18-68. Professor Phil Melanson wrote of the burning of "important papers".

F - Khan references Savak.

G - Kassab connections.

H - Van Antwerp goes missing.

I - A clearer and complete copy of letter referencing LAPD officer Beryl Mick.

J - Additional Braden documents.

K - Clearer copy connecting the dots.

L - Review of violations of Judge Arthur Alarcon Court Order.

M [redacted] Removed

N - The only photo (portion of a photo) of the secret torn gun label. (from SUS)

O - Pantry grid and adjacent area identifications.

P - Ramistella/Donnarauma.

Q - Tom Rathke. There were two topics that were taboo whenever I put questions to Sirhan. One was the possibility that hypnotism could be involved when he was in the Ambassador Hotel pantry. He ALWAYS refused to even consider that possibility. He would NEVER discuss hypnotism in the pantry. The other taboo was the name Tom Rathke. For years I tip-toed around Rathke and always he brushed the Rathke question aside. Then, after Dan Moldea's visits with Sirhan I again asked about Rathke and to my surprise Sirhan told me he did not know who that was. Well, I knew that was untrue and I dismissed his response as merely wanting to drop that line of questioning. I mention it here because Sirhan's constant refusal to discuss hypnotism in the pantry or Tom Rathke always puzzled me.
Had Sirhan's untruthful answer about not knowing Rathke taken place before Moldea's meeting with him I most certainly would have included it in my letter to Norton publishers. Indeed, about a year ago, when my son Brad reminded me of that Rathke conversation , I brought this matter to Moldea's attention. I did so because it clearly demonstrates Sirhan's responding untruthfully when he finds it necessary . I spoke to Dr. Herbert Spiegal about this incident and he told me a hypnotized subject will resort to telling lies to rationalize away unwelcome questions. Maybe that was the

case and maybe not, I do not know. And I am inclined to believe Sirhan doesn't know.

LAPD Form 15.2.1
Apr. 1962

INTRA-DEPARTMENTAL CORRESPONDENCE

August 7, 1968

TO: Lt. Manual Pena, OIC Background Conspiracy Section S.U.S

FROM: Lt. E. Hernandez, Investigator Background Conspiracy Team

SUBJECT: Polygraph Examination of Mr. Larry Arnot

On August 5, 1968 a polygraph examination was administered to Mr. Larry Arnot, 517 Melcanyon Rd., Duarte, California, Ph#358-8787.

The examination was administered by Lt. Hernandez in the polygraph facilities of Scientific Investigation Division Room 432A, Parker Center.

The purpose of this examination was to determine the truthfulness in Mr. Arnot's statements given to the F.B.I. on June 16, 1968. When he informed them that he had sold (4) four boxes of ammunition to suspect Sirhan Sirhan and two other dark foreign-looking Males who were present with Sirhan at the time of the ammunition purchase on June 1, 1968.

On that day, June 16, 1968, F.B.I. Agents Bruce Bradford and Norbert Linker showed Arnot (5) five photographs of Sirhan and his (4) four brothers. Arnot identified Sirhan as being the person that purchased the ammunition, and also selected a photograph of Shariff Sirhan, as "Bearing a strong resemblance to the individual that was present with him." Arnot said that he would be unable to identify the third person that was present in the store on that day.

Prior to instrumental testing on the polygraph, Arnot was questioned regarding the statement given by him to the F.B.I. on June 16, 1968. He maintained that his original story as given to the F.B.I. was true to the best of his recollection.

Arnot was shown a total of 17 look-alike photographs by Lt. Hernandez. These included four of the Sirhan brothers. Arnot looked over each of these photographs carefully and selected the following three photographs:

(1) Photograph of Munir Sirhan
(2) Photograph of look-alike - Bk No. 63481-1965
(3) Photograph of another look-alike - Bk No. 102661-1966

After selecting Munir Sirhan's photograph, Arnot commented that he felt he had been brain-washed because he had observed Munir's photograph on a number of previous occasions and therefore he felt that this was influencing his opinion. As to the other two look-alike

Y-53

13

Gun sales Lock Stock & Barrel
re. receipt 2372 for mini mag bullets

photographs that he selected, Arnot stated that he believed he remembered the two people depicted on the photographs as being present with Sirhan on June 1, but was not positive.

The instrument and its functions were discussed with Mr. Arnot, as were the theory and procedures of the polygraph examination. He was given an opportunity to ask questions concerning any phase of the examination. The questions which were to be asked instrumentally were reviewed with Mr. Arnot before any instrumental testing began.

A polygraph was obtained prior to the examination, which established that patterns capable of interpretation could be obtained. Responses were provoked. This indicated that Mr. Arnot would be a proper subject for polygraph testing.

During the course of the examination, physiological tracings at points where crucial questions were asked suggest very strongly that Mr. Arnot was being untruthful. He was specifically asked if he honestly remembered seeing any person with Sirhan inside the Lock, Stock N' Barrel Gun Shop on June 1, 1968, and his responses at this salient point indicate that he does not remember seeing anyone with Sirhan on that day. Further, after carefully evaluating the examination charts, it is the opinion of this examiner that Larry Arnot does not in fact remember Sirhan or the business transaction that took place on June 1, 1968 when the ammunition was purchased by Sirhan.

Larry Arnot was informed of the results of the examination and the conclusions that were arrived.

After a short period of interrogation, Arnot ultimately admitted that the only logical explanation for his failing the test was because he had lied.

He explained that the truth was that he was confusing the sale of ammunition to three other dark complextion men, and in his mind he was trying to convince himself that this was the Sirhan incident. However, he said that he could truthfully remember Sirhan being in the store on June 1. He knows that he sold Sirhan the ammunition because of a sales receipt which he made out, but he just cannot remember Sirhan or the sale.

As to the two men that he had described as being with Sirhan, he stated that he had probably been mislead by Mrs. Donna Harrick. She had told him that Sirhan and two other men had been in the store on a day previous to June 1. Therefore, he had assumed that these two men could have been with Sirhan on June 1.

Again Arnot was reminded that he had no sound basis to form this assumption, and he admitted that he did not.

Arnot requested that the previous reports as given to the F.B.I. be corrected. (Statements of Larry Arnot in file S.U.S Tape #29325)

14

INVESTIGATION OF PREMEDITATION

The Assassination Weapon

The gun used by Sirhan to kill Robert Kennedy was an Iver Johnson, .22 caliber, Cadet Model, two-and-one-half inch barrel, blue steel finish, with dark brown plastic grips, serial #H53725. The gun was manufactured in Fitchburg, Massachusetts, and was originally sold by the Pasadena Gun Shop on August 10, 1965.

The tracing of the ownership of the gun established that Sirhan Sirhan was present during the sale of the gun to his brother, Munir Sirhan, by George Erhard, a co-employee of Munir Sirhan. A second witness confirmed that Sirhan loaned his brother $6 toward the purchase of the gun. The weapon was purchased in February 1968, four months prior to the assassination.

Purchase of Ammunition

The search of Sirhan's vehicle yielded a receipt for the purchase of .22 caliber ammunition from a gun shop in San Gabriel, California. The sale took place on June 1, 1968, in the late afternoon just after Sirhan practiced shooting at the Corona Police Range. The salesman initially alleged that Sirhan was accompanied by two other men when the sale was made; however, this allegation was proven to have been false and the salesman retracted his statement, indicating that all he actually knew was that he made out the sales receipt.

L. Letters. All incoming letters are screened for possible investigative attention, indexed and filed. Those requiring an immediate reply are answered, others will be answered at a later and more appropriate time.

M. Medical Reports. All medical reports, ambulance slips, Central Receiving Hospital MT slips, doctor's reports, final autopsy, etc. which refer to events occurring on or after June 5, 1968. (Sirhan's medical history would show elsewhere in the files as background information.)

N. News Media. Items forwarded by our student worker-operated news clipping service are screened as to the need for investigative attention. Pertinent clippings are routed to the concerned investigator through his supervisor for re-interview or whatever action is indicated. Some of the more obvious reasons for farming a news story out for assignment would be information pointing to alleged witnesses or leads apparently not included in our investigation. News releases revealing major discrepancies between the facts determined by our investigation and the newspaper version might also be the basis for additional investigation.

O. Unassigned.

P. Phone Calls (Rampart). Originally used at Rampart as a category for activities resulting from phone calls made to Rampart. These items have been re-evaluated and documented with I-numbers where applicable.

Q. Photographs. A complete file of all photographs (all LAPD photos bear a special coding) grouped according to location and/or subject matter into the following sections:

1. Sirhan Sirhan and Family.
2. Identification photos and mugs.
3. Evidence.
4. Medical - Kennedy.
5. Medical - Other Victims.
6. Ambassador Kitchen.
7. Ambassador Hotel.

(B) contradiction Peo 55 wrong gun # in envelope

Wolfer Examination: September 1975

At the actual cross examination of criminalist DeWayne Wolfer, attorneys for Schrade, CBS, and Sirhan questioned Wolfer at length as to what he did and did not do in conducting his tests.

During the examination of Wolfer, Judge Wenke narrowed the scope of examination by ruling that the purpose of the questioning of Wolfer was mainly to aid the panel of experts in their forthcoming tests. "The purpose here is not to impeach or vindicate the witness" said Judge Wenke in answer to several repeated attempts by petitioners' attorneys to impeach the credibility of Wolfer. Wenke replied that he had no intention of "retrying the Sirhan case" during the re-examination of evidence by the ballistics experts.

On examination by all counsel concerning photographs and tests conducted by Wolfer in 1968, Wolfer repeatedly stated that he could not recall if he had made phase marks on the bullets during his examination of the three evidence bullets (People's 47, 52 and 54) that he had identified as having come from Sirhan's gun. Wolfer stated that he usually placed such a designation of phase marks on bullets, and recalled that he had been able to make a quick identification in the Sirhan case. When Attorney Levine asked if he could re-create his examination in court, Wolfer replied that, after seven years, he could not say either yes or no.

Wolfer was most careful in his statements on the witness stand, stating on many occasions that since the bullet evidence had been handled by several persons in the interval between his 1968 tests and his current 1975 testimony, there could be oxidation of the bullets. However, Judge Wenke ruled that although "it does appear that the County Clerk's procedures left something to be desired, and while there's always the possibility of damage, there is no actual evidence of damage to these bullets and exhibits." A major surprise produced by Wolfer was a photographic photomicrograph of two bullets that he had apparently taken in 1968, photos of bullets 47 and 52. This admission by Wolfer, and production of the photographs at the Wolfer examination hearing in September surprised even Deputy District Attorney Bozanich who replied the District Attorney's Office had never known that these photographs were in existence.

Wolfer did testify that the bullets' shell casing that he was examining with a magnifying glass during the three-day 1975 cross examination hearing were "tremendously dark." Additionally, Wolfer felt the striations (striations are marks made on bullets as they pass through a gun barrel) on two bullets (People's 47 and 54) were not in the same condition as when he first examined them in 1968. Wolfer felt that his original initials imparted on the bullets in 1968 had become by 1975 "tremendously darkened."

Wolfer prefaced many of his answers throughout the hearing with reminders that he was trying to recall what he had done several years ago. Wolfer even suggested that the handwriting on People's Exhibit 55 at the Sirhan trial appeared to be his, but he did not recall who had given him the wrong serial number, thus causing the so-called clerical error.

(18)

see Board of Inquiry pages 10 + 11. This contradicts someone giving Wolfer wrong gun number

A Mr. Harper.

Q Harper. "Well, the most significant thing, actually, is the views of Exhibit 55, and that presents two possibilities. Since it appears from combining the testimony along with Exhibit 55, and that Mr. Wolfer has identified Sirhan's gun as being the single murder weapon because of running tests on a different gun, this is quite clearly a violation of Precept No. 1. You can't run tests on some other gun to identify a particular gun in this case. Now, this is one possibility. The other possibility is that if the bullets in Exhibit 55 were in fact used in comparison microscope, and if they were positively tied in--identified as having come from the same gun--that the three errant bullets, if these matched, then that places this gun, H18602, in the pantry and fired at that time. Now, I don't know which it is. Is the other alternative or possibility that that Exhibit 55, at least on the outside of the envelope, has been mishandled." Would you respond to that statement, Mr. Wolfer?

A Yes. I previously covered it. At no time did I make any comparison of any of the evidence bullets with anything other than the Sirhan weapon which was the weapon #H53725. All of these tests were conducted before the time I ever received the other weapon, which was the weapon #H18602, consequently, the only thing that I can see is that there has been a mismarking of the envelope.

Q Did you have any recollection or any explanation of how

Contradiction of Board of Inquiry statement

this mismarking could have occurred?

A Yes. I think the mismarking of the envelope could certainly have occurred when I brought the bullets back to the laboratory from the originally marked envelope in my pocket. They were placed in a desk drawer. I had to make out a new envelope--I had to look up records to make out this envelope and I just inadvertently looked at the wrong number of the wrong gun, that's about the only way that I can account for it. I honestly don't know, but this is the most logical way that I can account for it.

BY COMMANDER BECK:

Q When you brought the three test bullets back to the laboratory with you, did you bring them loose in your pocket?

A No, Commander, I brought them back to the laboratory in a paper bindle to protect them from becoming damaged by carrying them in my pocket. They were brought back in a paper bindle that I made there at the scene.

Q And, do you recall placing that bindle in the top drawer of your desk and locking up your desk?

A Very definitely, this I remember very clearly because these were bullets that had a high security and these were the only ones I had.

Q This would be on what date?

A The day I testified at the Grand Jury, June 7, 1968, when I left the Grand Jury room.

Wolfer also stated that he could not recall whether he made any other tests on the Sirhan gun other than test firing it. Wolfer could not remember examining the gun's cylinder. Wolfer did state that he used one of the seven test fired bullets from the .22 caliber revolver to compare with an evidence bullet but he did not know if he had marked the one used for comparison, and could not remember in 1975 which test fired bullet had been compared to an evidence bullet.

The apparent lack of reports, both written and photographic, either made by Wolfer and destroyed, or never in existence, raised serious doubts as to the substance and credibility of the ballistics evidence presented in the original Sirhan trial.

Special Counsel Kranz commented during the Wolfer examination that the forthcoming ballistics examination by the experts would be crucial because it might be the first thorough examination of bullet evidence in the case. Kranz emphasized that the only area in the entire Kennedy assassination where the reports were not complete was in the ballistics area. Several of the attorneys involved were critical of the lack of documents and working papers to supplement Wolfer's testimony.

Subpoena Ducus Tecum - Items Produced
Wolfer's Daily Log

In answer to the subpoena ducus tecum asking Wolfer and L.A.P.D. officials to produce analyzed evidence reports prepared by Wolfer and other L.A.P.D. Scientific Investigation Division officers concerning tests or examinations relative to bullets and firearms exhibits, Wolfer, and L.A.P.D. officers Sartuche and McDevitt stated that they were only able to find one progress report dated July 8, 1968. This progress report was essentially a summary of laboratory work done in the S.I.D. Division under DeWayne Wolfer's supervision, and a trajectory analysis by Wolfer of bullet pathways.

Additionally, DeWayne Wolfer produced his own daily log covering his activities from June 5, 1968, through June 19, 1968. This log highlighted his work in the criminalistic section of S.I.D., and was a record of the following:

Reconstruction of the crime scene;

Search for physical evidence;

Examination of the Ivor-Johnson .22 caliber to determine the number of shots fired;

Analysis of the bullets;

His examination of the destroyed ceiling panels and x-rays thereof;

His microscopic examination of the Goldstein and Stroll bullets (June 6, 1968, at 8:30 a.m.);

His receiving of the Kennedy bullet, Exhibit 47, at 3:15 p.m., June 6, from Rampart detectives;

His comparison of the Kennedy bullet (Exhibit 47) and the Goldstein bullet (52) at 9:00 p.m., on June 6, 1968;

Wolfer also testified before the Grand Jury that the gold plating on the copper alloy bullets fired by Sirhan and also used by Wolfer for his own test fired bullets in 1968, was significant because this particular gold plating prevented the leading of the barrel by a bullet, which would tear the bullet if it did not have the particular gold plating. This plating kept the bullet from being unstable in flight. This was the nature of the mini-mag ammunition used by Sirhan and Wolfer.

Wolfer testified at the September 1975 hearing (as he had previously given statements to the press and to critics), that he was unable to use the Sirhan weapon for sound tests and muzzle tests. Wolfer stated that when he applied to use the Sirhan weapon for additional tests, he was told by representatives of the District Attorney's Office that the weapon was under the custody of the Grand Jury. And until the District Attorney's Office had a court order approved by Sirhan's new counsel, they would be unable to obtain the Sirhan weapon for additional tests.

In answer to the question why the eighth test fired bullet was never found, Wolfer replied that the particular bullet could not be found in the water tank where he had fired the Sirhan weapon (to obtain the bullets eventually identified as Grand Jury 5B and Trial Exhibit 55).

In discussing ceiling panels, Wolfer stated that he had found holes that had been made by fragments of fired bullets from Sirhan's weapon. These fragments had exploded, being hollow point mini-mag ammunition, and had split as they penetrated the ceiling tiles. Wolfer could not recall who else had looked at the holes in the ceiling tiles, or who else had participated in the x-ray analysis of the now destroyed ceiling tiles. Wolfer had removed the ceiling panels to the crime lab, but did not recall what other tests were made on the ceiling tiles. Wolfer did state that the ceiling panels in their entirety were three separate panels that reflected three bullet holes, the result of two bullets fired, one bullet entering and then ricocheting out, a second bullet entering and lost "somewhere in the inner space."

Additionally, Wolfer stated in addition to booking the ceiling panels, the L.A.P.D. had booked into the Property Division of the Criminalistics Laboratory two boards from a door frame. These boards containing circled holes were examined, and according to Wolfer, no bullets or fragments were found in the wood. These boards were the center divider pantry door frames, the object of much notoriety in several photographs of circled holes that appeared in periodicals for several years. These photos again surfaced in November and December 1975 as part of petitioner Schrade's motion for additional ballistics and trajectory tests.

Again, in June 1976, pursuant to the Freedom of Information Act, the FBI released 803 pages of its file on the Robert Kennedy assassination. On page 48 of the FBI report dated June 9, 1968, FBI photographer, Grinner, stated in his signed report (page 48) that there were "four reported bullet holes" in the area of the two swinging doors. Photographs of the swinging doors taken by Grinner to substantiate his one page report were included in the file.

placing of bullets in Spec. Ex. 10 (test bullet on L / evid bullet on R) of the scope in crime lab

A Well, I am having--have confused that the--this particular statement because he has two photographs, Exhibits 101 and 102. They have "T" on both of the Exhibits on my left and "X" on both of the Exhibits on my right. It is a common practice in our laboratory, and has been since I have been in there for the last 20-some odd years, that the test bullets be mounted on the left side of the scope and the evidence bullets be mounted on the right side of the scope, which they are in these Exhibits, and the only situation that varies between these two photographs is that I have the nose of the bullets in one photograph, the nose of the bullet in Exhibit 101 are going to my left, and the nose in Exhibit 102 are going to my right. Both of the skid areas between the test and the evidence bullets are both going in the same direction as they should normally go under comparison microscope.

Q With respect to Mr. Harper's statement that this is sort of an unusual statement--your response is that it is not an unusual situation and is not a violation of any precepts?

A That is correct. It is not a violation of any precepts and is absolutely not unusual.

Q In Exhibit 101 there was a very conspicuous defect in the right land shoulder, this is the test bullet part of the picture, this is the errant bullet below. I wanted to see if you could find in the actual bullets where this defect appears, on which bullet, and also locate this on the drankam fatal bullet?

* This procedure was not performed in Spec. Ex 10. The Knoch bullet is mounted on the left and the "test" bullet is mounted on the right.

TRANSLATION

L-57

I can see no reason that the brother of the killer of Mr. K is out of this (not involved). I suppose he bought the pistol. How can he assure that he did not buy it with this intention since Sirhan B used it shooting blanks (target practice). I hope to read something in the newspaper about this matter. Thanks and may God bless you.

28

6-4-68 Gun roster (not everyone signed in)

The roster that is referred to above is kept at the control tower office (Addendum), and is to be signed by all persons firing on either the rifle range or the pistol range. One of the rosters is for non-members; the other, for club members. The signing of this roster is not strictly adhered to by the members of the club, nor does the range master require everyone to sign. At least 10 persons fired on the range 6-4-68, and failed to sign the roster.

On 6-5-68, at approximately 12:10 A.M., Charles Kendall was watching the Kennedy acceptance speech. Later that morning, he heard of the shooting and saw a picture of the suspect, Sirhan Sirhan, on the TV screen. He recognized Sirhan as the person he saw firing a small caliber weapon at the San Gabriel Valley Gun Club on 6-4-68. On 6-6-68, Kendall returned to the gun club and asked the club manager, Lloyd Hager, if he was aware of the fact that Sirhan Sirhan had fired on the range on 6-4-68. Hager dismissed this idea as a joke on Kendall's part. Kendall entered the business office where the rosters are kept, and found the name "Sirhan Sirhan, 696 East Howard Street, Pasadena, the 14th signature for the date of 6-4-68. Kendall showed the roster to Joseph Tescher, and the executive officer, Maynard Goodell. Both Tescher and Goodell advised Hager to notify the LAPD. Hager contacted LAPD on 6-7-68, between 3 and 4 P.M.

Investigation has revealed Sirhan Sirhan arrived at the San Gabriel Valley Gun Club on 6-4-68, between 11 and 11:30 A.M. After signing the non-member roster and obtaining a target, he took a position at the west end of the pistol range (Addendum). None of the witnesses can place Sirhan on a specific target; however, most of them agree on one of four (Target 5, 6, 7 or 8).

All of the witnesses agree that Sirhan was firing a .22-caliber revolver, blue steel in color, with a short barrel. Carreon and Montellano both had conversations with Sirhan regarding his weapon. During this conversation, they noticed the gun, and when they asked Sirhan what the make of the gun was, he did not reply as to the make, but merely pointed to the upper portion of the frame where the name "Iver-Johnson" was inscribed.

In addition to Carreon and Montellano, the range master, Everett Buckner, Claudia Williams, Ronald Williams and Saccoman, all had conversations with Sirhan. Sirhan approached Saccoman and had a conversation regarding Saccoman's gun. Sirhan was impressed with the gun and asked if he could fire it. Saccoman agreed and Sirhan fired several rounds from the weapon. In turn, Saccoman fired Sirhan's gun and described it as: "A cheap model .22 caliber revolver, with a short barrel."

Ronald and Claudia Williams, husband and wife, both had conversations with Sirhan after they arrived at the San Gabriel Valley Gun Club on 6-4-68, at approximately 4 P.M. Ronald Williams, after obtaining his target from the range master, went to the rifle range, and Claudia Williams went to the pistol range, taking up a position on target 21 or 22. Claudia Williams, after firing several shots from her revolver, was unable to hit the target. Claudia requested assistance

INFORMATION: (WHO, WHAT, WHEN, WHERE, WHY & HOW)

SYNOPSIS OF TAPE #29225 OF SUBJECT TAPED AT HIS RESIDENCE ON ABOVE DATE AND TIME BY SGT. M. GUTIERREZ.

Khalid Iqbal was at the Ambassador Hotel on June 4, 1968, at approximately 9:30 p.m. At this time he was given a press pass by a Kennedy staff member. During the evening he met two co-workers, Irene Evashko (I-1891) and Janis Jones (I-1890). He also met a girl named Linda Gamberro (I-943). During the Senator's speech Iqbal was standing on the stage taking pictures of the SEnator. A friend of Iqbal's, Harrish, (I-1888) also took pictures of the Senator with Iqbal's camera.

Iqbal is in the U.S.A. on a student visa from Pakistan.

Iqbal had (~~three~~ ??) cameras that night @ Ambassador Hotel - possibly 3.

see reference to another Iqbal camera used @ hotel by a man named Kakar (is this 3 cameras belonging to Iqbal that night?)
Also, Harrish used Iqbal's other camera (see I 1876)

MR IQBAL, A PAKISTANI CIT., HERE IN THE U.S. ON A STUDENTS VISA, STATES THAT HE IS A FREE LANCE WRITER AND PHOTOGRAPHER FOR THE NEWS MEDIA IN HIS COUNTRY.

ON JUNE 4/1968 HE WENT TO THE AMBASSADOR HOTEL TO COVER THE VICTORY PARTY OF SENATOR KENNEDY. HE ARRIVED AT THE HOTEL AT APPROX. 9 PM. MR IQBAL STATES THAT WHEN HE ARRIVED HE WENT TO THE CRAWFORD & RAFFERTY PARTIES AND TOOK SEVERAL PICTURES AT EACH LOCATION. HE THEN LEFT THIS AREA AND WENT DOWNSTAIRS TO THE BALLROOM WHERE HE MET TWO GIRLS HE KNEW. THESE GIRLS, JANICE AND IRENE (LAST NAMES UNKNOWN) USED TO WORK AT MICRO DOT ELECTRONICS IN PASADENA. NOTE: SEE 4TH PAGE FOR COMPLETE NAMES AND ADDRESSES.

AFTER SPENDING A WHILE IN THE BALLROOM HE RETURNED TO THE 2ND FLOOR AND WENT DIRECTLY TO THE EMBASSY ROOM WHERE HE REMAINED THE REST OF THE EVENING. DURING THIS TIME HE TOOK NUMEROUS PICTURES OF VARIOUS PERSONS IN THE CROWD AND STAGE.

APPROX. 15 MINUTES PRIOR TO SENATOR KENNEDY ARRIVING MR IQBAL POSITIONED HIMSELF ON THE STAGE IN CROWD TO

GOT CLOSE UP PICTURES OF MR KENNEDY. MR IQBAL TOOK NUMEROUS PICTURES DURING THE VICTORY SPEECH.

AFTER MR KENNEDY FINISHED HIS SPEECH, MR IQBAL REMAINED ON THE STAGE AND WATCHED HIM LEAVE THE AREA.

SEVERAL SECONDS LATER MR IQBAL HEARD A GIRL CRYING. THE GIRL WAS STANDING ON THE STAGE. HE TOOK A PICTURE OF THE GIRL. HE THEN NOTICED A MAN WITH BLOOD ON HIS HEAD STANDING NEAR THE KITCHEN AREA AND TOOK HIS PICTURE. HE ALSO TOOK A PICTURE OF A WOMAN WHO HAD BLOOD ON HER FACE. MR IQBAL STATED THAT HE DID NOT GO INTO THE KITCHEN AREA BECAUSE AT FIRST DID NOT KNOW THERE HAD BEEN A SHOOTING AND "BELIEVE" HE RAN OUT OF FILM. HE THEN WALKED OFF OF THE STAGE AND MET A FRIEND OF HIS, AN INDIAN FROM INDIA KNOWN AS "HARISH," WHO HAD BEEN TAKING PICTURES WITH MR IQBAL'S OTHER CAMERA. MR IQBAL GOT HIS CAMERA FROM "HARISH" AND BEGAN TAKING PICTURES OF PERSONS IN THE EMBASSY ROOM.

HE ADDED THAT AFTER FINDING OUT ABOUT MR KENNEDY BEING SHOT HE TRIED TO ENTER THE KITCHEN AREA.

Burning of 2,410 SUS photos re 8-21-68 witnessed one month earlier re 7-18-68 SUS burned employee's photos in Glen Hoyo. incinerator. What was burned on subpoe under?

51

22 days later "important papers" burned in same hosp. incinerator.

INTER-AGENCY MEETINGS

The system of inter-agency meetings was developed to provide a method of exchanging information and ideas among the several concerned agencies. The agencies participating included the Los Angeles County District Attorney's Office, the Federal Bureau of Investigation, the United States Attorney General, the Los Angeles County Sheriff's Office, and the Los Angeles Police Department. A total of six meetings were held between the inception of the investigation and the end of 1968.

The first meeting was held on June 9, 1968. In attendance were representatives from the Los Angeles Police Department, the F.B.I., the United States Attorney Generals Office, the United States Attorney's Office, the Los Angeles County District Attorney's Office, the Los Angeles County Sheriff's Office and the United States Secret Service. Those present were briefed on the current status of the investigation and Deputy District Attorney John Minor gave an account of the autopsy. The Los Angeles Police Department assumed the responsibility for the investigation. Future meetings would be held as the need arose.

The second meeting was held on June 26, 1968. Deputy Chief Robert Houghton, Inspector John Powers and Captain Hugh Brown represented the Los Angeles Police Department. (2) represented the F.B.I.; Matt Byrne, the United States Attorney; Captain George Walsh, the Sheriff's Office; and Lynn Compton, John Howard and George Stoner, the District Attorney's Office. The main objective of the meeting was to establish policy re-

destruction of ceiling panels

Admission by L.A.P.D. of Ceiling Panel Destruction

Prior to the appearance of DeWayne Wolfer in Judge Wenke's court for cross examination by the several parties in mid-September, 1975, was a shocking disclosure before the Los Angeles City Council in late August, 1975. At this hearing, Assistant Chief of Los Angeles Police, Darryl Gates admitted that the L.A.P.D. had destroyed ceiling panels containing three bullet holes that had been taken from the Ambassador Hotel kitchen pantry the day after the assassination. Moreover, Gates stated that these ceiling panels, along with x-rays of the panels, and records of the x-rays, had all been destroyed in 1969 because they "proved absolutely nothing."

Gates had been summoned before the Los Angeles City Council as part of its own independent investigation into police procedures relative to the Kennedy assassination. Reports had surfaced for several months that items of evidence in the case were missing. Gates argued that the destroyed items, including the ceiling panels with the three bullet holes in them, were technically not evidence since none of the destroyed items had been introduced at the trial of Sirhan in 1969. Legally, he was correct, although at the time of their destruction, immediately following the 1969 trial, the first appeal of Sirhan was not yet in progress. Gates justified the destruction of these panels and x-rays as "having absolutely no value since all of the testing, the real important testing, trajectory and the line of fire and the number of bullet holes, had been done prior to their removal from the ceiling. The L.A.P.D. had made those tests and they had showed absolutely nothing. They proved absolutely nothing. They did nothing so far as supporting the investigation and in supporting the guilt or innocence of anyone." Gates also made reference to the fact that the records of the x-rays and the x-rays themselves proved nothing and were no longer in existence.

Additionally, this disclosure by Chief Gates occured at a time in which other law suits were being filed by other interested parties (additional advocates of two gun theories) for a release and disclosure of the ten volume L.A.P.D. summary of the Special Unit Senator files. A refusal by the Los Angeles Police Department and the Los Angeles Police Commission to release these volumes added to the previous charges of "cover-up", "stonewalling", and the like. Police Commission President Samuel Williams stated, "that a procedure would be created whereby all questions in written form to the Police Commission concerning evidence in the ten volume summary would be released by a written answer to the questions." The Police Commission was concerned that if it opened the files to the public, much of the information released would be harmful to innocent parties and would have no relevance whatever to the assassination. This was primarily because the tenvolume summary contained hearsay evidence and police reports on the private lives of some individuals who had later been found to have had no part in the assassination.

Finally, the admission of destroyed ceiling panels contributed to the growing cynicism and doubt concerning the assassination. Many critics of the official version of the case claimed the ceiling panels were of crucial importance. They argued that the number of bullet holes in the now destroyed panels might determine whether more than eight shots had been fired in the pantry.

SEARCH WARRANT NO.: 12208	DATE: 12/18/75	ISSUED BY JUDGE: C.STROMWALL	COURT NO.: Div.40	☒ ALL ITEMS ON THIS REPORT.	☐ ONLY ITEM NOS.

Separate reports are required for each classification of property: Evidence: Book to Arrestee. If none, Book to Victim. If neither, Book to Dept. Employee (Book as Evidence if connected to Crime, Possible Crime, or Arrest.) Non-Evidence: Book to Finder, Depositor, Owner or Person in lawful possession.

(1) IF STOLEN IN CITY OF LOS ANGELES EACH CASE MUST BE COVERED BY CRIME AND FOLLOW-UP REPORTS. (2) DESCRIBE CIRCUMSTANCES RESULTING IN BOOKING OF THIS PROPERTY. (3) GIVE ADDRESS, TIME AND/OR PHONE NUMBER WHERE CONCERNED PERSON(S) MAY BE CONTACTED BY DAY INVESTIGATORS IF NOT LISTED, OR OTHER THAN ABOVE. ITEMIZE AND DESCRIBE ALL PROPERTY OMITTING DOLLAR VALUE, IF LISTING TOTAL VALUE OF U.S. CURRENCY BOOKED.

ITEM NO.	QUAN.	ARTICLES	SERIAL NO.	MAKE	MODEL	MISCELLANEOUS DESCRIPTION (EG. CONDITION, MARKS, CALIBER, REVOLVER 4" BARREL)	U.S. CURRENCY BOOKED
156	1	Wood sample					

A piece of wood, unpainted 10 5/8 inches long, 1 9/16 inches wide and between 2 1/8 to 1 1/16 inches thick. The item is marked "Sample 1 R J Bingle 9:45 PM" for identification and bears the notation "Cut LAPD" on three sides. It is also marked "Vincent Bugliosi 12-18-75." This item was removed from behind the board marked "B" in photograph 55. The item is a portion of the right hand 2 x 6 seen in photograph 68, and represents the areas marked by the arrows and numbers 19 and 20 in that photograph. The item was collected for further examination of locations 19 and 20, which locations on the item are shown in photographs 72 and 73. This item was removed by making a cut 59 1/2 inches above the floor and 47 3/4 inches and a third cut nominally 2 inches west of the east or front surface. Before removal, the top was marked with a single ink line extending across the saw cut and the bottom was marked in a like manner with a double line. The side facing the north door opening was marked with an arrow and the word "Out." The item was removed and marked at 2146 hours.

157	1	Wood					

A piece of wood 81 5/8 x 5 x 13/16 inches, painted yellow on one side and both edges, and an envelope containing a nail and portions of five nails. This item is the board marked "B" in photographs 55 and 56. The board is the portion of the door casing covering the east face of the door mullion. The item was removed by prying at 2015 hours, and marked in the following manner:

1. "Sample 2 12/18/75 R J Bingle" "Vincent Bugliosi 12-18-75" for identification.
2. All areas where tool marks resulted from the removal were marked with dots or lines. These marks are on the unpainted side of edges.
3. Marked with "Up" and an arrow on the painted to indicate the top.
4. A nail was removed and the resulting hole was marked with "removal" on an arrow.

INTER-AGENCY MEETINGS

The system of inter-agency meetings was developed to provide a method of exchanging information and ideas among the several concerned agencies. The agencies participating included the Los Angeles County District Attorney's Office, the Federal Bureau of Investigation, the United States Attorney General, the Los Angeles County Sheriff's Office, and the Los Angeles Police Department. A total of six meetings were held between the inception of the investigation and the end of 1968.

The first meeting was held on June 9, 1968. In attendance were representatives from the Los Angeles Police Department, the F.B.I., the United States Attorney Generals Office, the United States Attorney's Office, the Los Angeles County District Attorney's Office, the Los Angeles County Sheriff's Office and the United States Secret Service. Those present were briefed on the current status of the investigation and Deputy District Attorney John Minor gave an account of the autopsy. The Los Angeles Police Department assumed the responsibility for the investigation. Future meetings would be held as the need arose.

The second meeting was held on June 26, 1968. Deputy Chief Robert Houghton, Inspector John Powers and Captain Hugh Brown represented the Los Angeles Police Department. [redacted] represented the F.B.I.; Matt Byrne, the United States Attorney; Captain George Walsh, the Sheriff's Office; and Lynn Compton, John Howard and George Stoner, the District Attorney's Office. The main objective of the meeting was to establish policy re-

55

garding the anticipated demands of the defense in a motion for discovery.

The third meeting was held on July 22, 1968. In attendance were representatives from the United States Attorney General, the Federal Bureau of Investigation, the Los Angeles District Attorney and the Los Angeles Police Department. The District Attorney's prosecution plan and Sirhan's medical-mental evaluation were discussed. The remainder of the meeting involved discussions of specific investigative problems.

The fourth meeting was held on September 5, 1968. The cost of furnishing the defense with copies of reports resulted in the decision to refer them to the court if the requests became unreasonable. It was also decided to allow the defense to interview the arresting officers, but only in the presence of a Deputy District Attorney. The advisability of interviewing the out of state hotel guests was discussed. The decision was made to have the F.B.I. pursue this phase of the investigation. The groundwork was laid to compare the F.B.I. reports and the S.U.S. reports prior to beginning the final reports.

The last scheduled inter-agency meeting was held on December 3, 1968. Deputy Chief Houghton reviewed the purpose and accomplishments of the inter-agency meetings. He pointed out that the Los Angeles Police Department, as the primarily responsible investigative agency, had coordinated the meetings. With the beginning of the trial, the primary responsibility shifted to the District Attorney's Office and they would coordinate future
